"Faith in Action, Excellence in Education."

November 27, 2012

Dear Parents,

We write to notify you of some challenges we are facing as we work to help our children learn and grow each day. In the past several weeks we have had a number of our children become ill in a variety of different ways. We have had diagnosed cases of flu, strep throat, ear infections, bronchitis, stomach viruses, sniffles, lethargy, and tummy aches. We have specific protocols in place to handle sanitizing the room at the end of the day and special protocols to follow after any illness is identified.

The Center for Disease Control and the Mississippi Department of Health have recommended specific protocols to follow to identify potential risk and manage illnesses. Our teachers have reviewed proper hand-washing techniques, managing coughs and sneezes etc. with each class. The CDC and the MDH recommend that parents ensure that children are fever free and symptom free for 24 hours without medication before returning children to school. This will limit spreading the various germs.

We want to keep our students happy, health, learning and growing as God intended. With your help and due diligence we can keep things on track for a successful year. If you have any questions or concerns, please contact your child's teacher or me. God Bless you all.

Yours in Christ,

Elizabeth Benefield
Principal
